UNIVERSITY  
OF LODZ

## Our Four Thieves Oils® line includes:

- original Four Thieves Oils®
- fragrance mist
- iodine-bromine salt

FOUR THIEVES OILS®

## ORIGINAL FOUR THIEVES OILS® HEALTHY SMELL, LIGHT BREATH

Four Thieves Oils® has a very pleasant and refreshing scent, making it perfect for improving the microclimate of rooms.

A blend of six natural oils: clove, lemon, cinnamon leaf and bark, eucalyptus, and rosemary, is an excellent solution during periods of increased infections. Used in a diffuser or aroma burner, it will wonderfully improve the atmosphere in your home.

The blend of oils also finds year-round use as an aromatherapy in a relaxing bath and as an ingredient in DIY cosmetics.

QUALITY AND INNOVATION

MEDICAL  
UNIVERSITY  
OF LODZ

The only product in the aromatherapy category with the „Quality and Innovation” designation of the Medical University of Lodz.

## OILS&THERAPY NATURAL CARE

100% natural oils are valued by both the pharmaceutical and cosmetic industry. They are particularly treasured for their abundance in vitamins.

OILS&THERAPY line:

- Perfect for any type of skin (including dry skin, skin prone to stretchmarks, scarring, or discolourations, as well as tattooed skin)
- Facial and body massage
- To be added to bathwater

# OILS&THERAPY NATURAL CARE

100% natural iodine-bromine salts derived from original Bochnia salt:

- Bathing
- Exfoliating massage

RELAXATION

REGENERATION

# TATTOO OILS SUITABLE FOR ALL SKIN TYPES

NOVELTY!

## TATTOO OIL - LAVENDER

### Soothing and Regeneration

**Skin benefits:** Helps regulate sebum, supports acneprone skin, soothes irritation, and promotes faster healing. Provides a relaxing, aromatherapeutic effect.

**Effect on tattoos:** Ideal for skin prone to itching, dryness, or minor irritation. Supports epidermal regeneration, helping tattooed skin recover more comfortably.

**When to use:** Perfect for sensitive, dry, or itchy skin (e.g. in winter or under heavy clothing). Calms, soothes, and deeply regenerates while surrounding you with a relaxing scent.

## TATTOO OIL - ROSEWOOD

### Elasticity & Renewal

**Skin benefits:** Known for its ability to stimulate tissue regeneration (historically used for scars and stretch marks). Improves skin elasticity and firmness.

**Effect on tattoos:** A tattoo looks its best when the skin is firm and supple. Rosewood helps maintain elasticity, preventing distortion of the tattoo design caused by skin laxity.

**When to use:** Ideal for skin showing signs of loss of firmness, which can affect the clarity of tattoo contours.

## TATTOO OIL -FRAGRANCE FREE

### Balance & Deep Nourishment

**Skin benefits:** Effectively balances sebum production (for both dry and oily skin).

**Effect on tattoos:** By regulating sebum secretion, it promotes faster skin renewal, leaving it exceptionally smooth and soft. It also has anti-aging properties. Furthermore, this oil has a very exotic, relaxing scent and acts as a natural aphrodisiac.

**When to use:** Perfect for boosting skin renewal while leaving tattooed areas silky-smooth and well-balanced. Helps maintain optimal skin hydration balance.

## TATTOO OIL - FRAGRANCE FREE

### Healthy Appearance & Glow

**Skin benefits:** The oils deeply moisturize, smoothen, and nourish the skin while restoring its protective barrier. **Effect on tattoos:** Properly moisturized and nourished skin helps maintain vibrant colours and sharp tattoo contours.

**When to use:** Ideal for enhancing skin renewal, leaving tattooed areas silky, smooth, and well-nourished. Improves hydration, smoothness, and elasticity.

TATTOO OIL

OILS THERAPY®

## TATTOO OIL

# 100% NATURAL OILS AND ESSENTIAL OILS FOR TATTOOED SKIN CARE

NOVELTY!

- Enhances the intensity and vibrancy of tattoo colours
- Helps maintain optimal contrast and protects against fading
- Absorbs quickly without leaving a heavy residue
- Provides long-lasting, lightweight hydration
- Nourishes, smoothens, and softens the skin
- Anti - aging benefits
- Perfect for massage and skin care

## WHY OPTIMA NATURA OILS FOR TATTOOED SKIN CARE ARE A GOOD CHOICE?

### Because they bring out the best in your tattoo:

**„Magnifying Glass” Effect:** Dry skin makes tattoos look dull and faded. Our deeply moisturizing, occlusive formula smooths the epidermis, instantly enhancing contrast, deep blacks, and colour vibrancy.

**Protection Against Oxidative Stress:** Vitamin E and natural oils help neutralize free radicals, protecting the skin from micro-damage that can negatively affect tattoo colour over time.

**HOW TO USE:** Apply a few drops to clean, tattooed skin. Gently massage until absorbed. Use 1-2 times a day.
